

FEATURES

The PFL fixed louvre grille is designed for external mounting. It is made from impact resistant UV-stabalised PVC and incorporates flywire mesh to eliminate the entry of insects and debris.

Can be used for supply or exhaust applications and is available in 100, 125, 150 and 200mm spigot sizes.

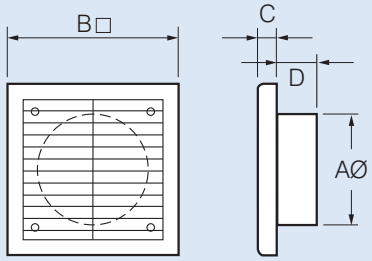

Suitable with a large range of wall/ceiling mounted and in-line fans.

Testing: Air flow tests based on ISO5801:2007.

SPECIFICATIONS

The fixed louvre grille shall be of the PFL series as supplied by Fantech and be of the model number shown on the schedule/drawing. It shall be manufactured from injection moulded UV stabilised PVC and incorporate flywire mesh as standard.
